Feel Good After Surgery

This formula is a highly effective combination of homeopathic remedies designed to help relieve the bruises, pain swelling and bleeding often experienced following surgery.

Patients see a significant difference in just 3 days (Recommended usage usually not to exceed more than 3 days. In severe cases, continue once a week for 3 weeks.)

This homeopathic formula is used for all kinds of injuries. It is proven effective in both acute and chronic conditions.

This formula is particularly used in injuries where bleeding, contusion and sprain are involved, especially following surgical trauma where there is bruising. It can also help in cases of post traumatic pain and neurological damage in addition to having a calming effect on the patient.

In mild traumatic brain concussion where a patient may slip in and out of coma, this formula has also been very effective.

An interesting experiment was reported in the 1983 LIGA meeting, showing one of these formulas significantly improved resorption of blood following rhinoplasty where there is bleeding in soft tissue (Roger Morrison's book published in 1993).

This formula also has been highly effective in extractions and other procedures.

It is also an excellent formula in labor. It speeds up dilation of the cervix and relieves soreness resulting from delivery.

- This formula speeds up recovery following any type of surgery including plastic surgery.
- This formula with homeopathic ST. J. W (Hypericum) is an injury formula especially for injuries to spine and the nerves.
- This formula helps the pain of sharp and shooting quality. It helps injuries, contusions, lacerations and punctures to parts rich in nerves.

It relieves pain after dental procedures, injuries to tailbone, falls, blow labor and delivery.

It relieves pain after every operation.

It relieves pain from lacerations or wounds with much protrusions from loss of blood.

In homeopathic treatment, continuing the formula for more than it is needed can cause the original symptoms to come back. Therefore, you need to use the exact dosage potency and frequency of the formula.

This product is accurately designed to be used for any kind of surgery and by any surgeon.

No clinical trials have been conducted to support this information. Only the facts and personal clinical experience of the author have been taken into consideration.

Homeopathy cures a larger
Percentage of cases than any
