

My recommendation to Dr. Salar Farahmand

My pain started two years ago. My joints started to ache, I had a hard time walking, and I could not lift my arms above my shoulders. It was difficult for me to pick up or carry anything with substantial weight. Once the pain graduated to my back, I could barely walk. The pain was effecting my emotions. I was getting migraines. The physical and the emotional aches and pains were so unbearable I lost my desire to live. I could not enjoy my family anymore. I was seen by many different doctors. Their diagnosis was Fibromialgia. Fibromialgia is a disease where your brain does not produce a chemical, and your nerves work overtime. Fibromialgia is not curable as I was told. I was prescribed some depression medication. While I was on the pills, emotionally I felt good, but they did not help with my physical pain.

My brother in law's friend had a recommendation to Dr. Farahmand because his son was getting frequent ear infections. Dr. Farahmand was able to treat and cure the ear infections. Since then he has not had any problems or reoccurring infections. After their recommendation, I took it upon myself to try Dr. Farahmand and his alternative treatment methods.

I scheduled my first appointment even though I was skeptical. After my first meeting with the doctor he made me feel comfortable and relaxed. He reassured me. I knew something was wrong, but no other doctor could figure it out. Dr. Farahmand was understanding. He believed in me. In turn I had to believe in him. I went ahead and scheduled my first session. His treatment included acupuncture therapy and a blend of herbs he referred to as Homeopathic medicine. I visited his office six times. Each time I received the therapy, I felt better. The aches and pains were decreasing in severity. I knew Dr. Farahmand was on his way to curing me completely. After my last session, my pains had completely disappeared. I had finally graduated as the Dr. would put it. Dr. Farahmand told me that my treatment was theoretically good for a lifetime. As a practicing Dr., he does not like to make lifetime promises due to changes in lifestyle, medicine, or any outside factors. He did however guarantee no pain for at least four years. I was happy to take that knowing the kind of pain I was suffering from. I am willing to take a chance on this wonderful treatment that will guarantee four years of pain free life. I am hoping that it will be a lifetime cure, but for now I am enjoying my life with my family without any pain.

I highly recommend Dr. Farhmand. He was able to cure me, and I have no doubt that he can cure you as well. Please take it from me, trust in him. Give him a chance, and his treatment will make a world of difference.

To Whom It May Concern:

I started going to Dr. Faramund in December 1999 for treatment of the following problems:

1. I had a hiatal hernia.
2. I had constant reflux in my throat after eating.
3. I choked frequently on the regurgitation of food I had just eaten or sometimes later after eating. Sometimes, I would start choking on just plain saliva.
4. I had constant digestive problems.
5. I had constant vaginal yeast infections.
6. I had been diagnosed from medical doctors with the following:
 - a) Fibromyalgia
 - b) Irritable Bowel Syndrome
 - c) Rosacea
7. I had been hospitalized for a virus that got in my blood stream (which I almost died from), that left me with a weakened immune system, yeast & fungus skin problems, and scar tissue on my vocal cords.
8. Throughout the previous 30-40 years, I have had several surgeries which included:
 - a) Gall Bladder
 - b) Exploratory surgery - Left Ovary with attached dermoid cyst removed. Appendix also removed at same time.
 - c) Two D & C's & Conerization of the cervix.
 - d) Two Laparoscopies.
 - e) Deviated Septum.
 - f) Two foot surgeries.These surgeries left me with a lot of problems associated with scar tissue.
9. I suffered from low energy, plus a lot of muscular pain from the Fibromyalgia.
10. I had constant ringing in the ears.
11. I had hemorrhoids.
12. I had been in three different car accidents.

Since I've been seeing Dr. Faramund, I have improved tremendously in all areas. I am still under his care, as we are still in the process of treating all of these things. I'm very happy with the progress.

C. All of my skin problems in the face have cleared up 7/26/01.

- A. All symptoms of the hiatal hernia have disappeared for the last two months. 7/26/01.
- B. The regurgitation & choking on food has disappeared. 7/26/01
