

Dr. S. Farhmand gave me
Some medications a few week ago
to cure my galstone, I had pain
in my chest (Right side) 2 ^{cm} ~~cm~~ galstone
was the cause of the pain. Now I have
no pain in my chest or my back
I also lost 10 to 15 pounds, and
generally feel much better. I should
lose another 20 pounds.

I am very thank ful to Miss jumret
And Dr. Farhmand they helped
me lot. I think they do miracles
in their clinic And they help people live
a better life. I have few other problems
Dr. said he will help them one by one

I hope that you and all your family are well. I don't know how to express my great gratitude to you, for your wonderful work. You have helped me to get a new lease of life by curing my medical problems.

Although I was advised by several doctors that I should operate on my slipped discs, and I was in such a pain that I consented to it, you assured me that such an operation would be unnecessary after you had treated me. You held your promise. You cured my back ailment and I am as good as new, with absolutely no pain or problem! The doctors were amazed! A year later, I was diagnosed as having gall stones, and again was told that I would probably have to have an operation. Again, Dr. Farahmand, you told me that after your cure, I would be totally free of my gall stones. Not only that, but you said that the cure would even prevent new stones from forming!

Incredible as it seemed, it really worked! In just 3 days, your special formula, exclusive only from you, made me free of gall stones. I felt and looked better – no more nausea, and my color turned from an unhealthy yellowish tinge, to a glowing pink. I am still well thank G-D.

In other ways you have helped me – my energy level has greatly improved, I have no more P.M.S. , and my recurring headaches have virtually disappeared, thank G-D.
