To Whom It May Concern,

(55)

I'd like to share my delight in having met such a wonderful doctor as Dr. Fabramand with other ailing, searching future patients!

I was suffering terribly with fall bladder pain and stones, therefore went on a homeopathic treatment which cured the situation within a week without any invasive operation or procedures.

I also had a bladder problem which kept me incontinent when I sneezed or coughed, and, again, with homeopathic medicines and acupuncture this nagging problem of years, disappeared within months.

My energy, too, had been low and I was somewhat depressed, yet again, with acupuncture the doctor put me back on track and now I have so much energy I may have to see Dr. Fabramand to slow down!

Thank-you greatly & much love!
